

OUR PRODUCTS & SERVICES

‘SAFETY IS A CORE VALUE’

Sanarc Solutions uses a colourless and odourless Terminal Sanitizer in conjunction with an Electrostatic Sprayer (ESS). The sanitizer is a patented technology which utilises more than one biocide with polymer material bases, the structure of which, provides residual effectiveness for up to 14 days.

ELECTROSTATIC SPRAYING

A preventative treatment which comprises of sanitising the entire environment by means of ESS spraying.

Electrostatically charged particles create 360 degrees of coverage on all touch points, eliminates any possible exposure to Covid-19 using a proven sanitizer with a residual efficacy of up to 14 days.

Price structure

Description	Rates	Total (Rand)
minimum charge	inclusive of call out fee	R3000,00
